GREAT VALUE

Apple iPad 2

The device that does it all now does even more.

See bigger smiles with FaceTime. Shoot HD video. Take fun photos in Photo Booth. Surf the web, check email, watch films, listen to music, read, write and more. Let's just say your hands are full.

Dual-core A5 chip. It's fast, times two.

Two powerful cores in one A5 chip mean iPad can do twice the work at once. You'll notice the difference when you're surfing the web, watching films, making FaceTime video calls, gaming and going from app to app. Multitasking is smoother, apps load faster and everything just works better.
